

Amadeus Online Suite

Grow your online travel
business-it's so easy!

Amadeus online suite has excellent features, right content and personalization services that can boost your revenue and online penetration in the market.

Benefits for Travel Sellers

Let's get connected to the richest, most relevant content

Online bookings made easy

With Amadeus Online Suite, you can create new revenue streams using the same search and shopping technology as the biggest names in travel! Built upon Amadeus' rich content and superior IT platform, our online booking engine delivers faster, more accurate results.

Make it easy from any device

Our fully responsive and, in particular, mobile friendly flight booking flow makes it so easy to navigate. This takes more than fitting a desktop-optimized site into a mobile screen.

Optimize your online revenues

Go online with minimal upfront investment. After easily deploying a unique e-commerce site with Amadeus Online Suite, offer your customers not only the most convenient itineraries and the widest choice of airlines but variety of hotel properties and payment options as well. There is no maintenance and development cost.

Your personalized mobile app

Travel agencies can enjoy their dedicated mobile app to serve their customers. Choose multiple templates with your own branding scheme offering state-of-art user interface and user experience.

Inspire and convert

Choice and transparency

Our leading low-fare search technology¹, provides 250 of the cheapest solutions in just a few seconds. And with seat availability checked in real-time, booking and conversion performances are optimal.

Personalized services

Our search technology can help you to combine the GDS and LCC recommendations. Convert even more by automatically proposing the best alternate match when the travellers cannot book the selected flights. Flexible travellers can search across close dates, airports or other options to find alternate cheaper proposals.
