

Amadeus Online Suite *for Mobile*

Booking experience via mobile is on the rise for all types of travellers. For the Connected Travellers, they are more likely to see their mobile phone as a booking device, both before a trip and during your stay.

What are the different features?

Multi-Market

Travel agency can plug in multiple point of sale based on routes.

Branding, Colors, Labels, Custom Menu Links

Travel agencies have full flash theme management which helps them to customize the portal as per their branding.

Multi-Language

Product is powered by English, Arabic and French. More languages will be available soon.

Easy support

Travel agencies build lasting relationships with the connected traveller.

Support them via Phone, email, and Live Chat. Travel agencies can plugin with Live chat as a quick service.

Reports

All the standard reports, along with advanced booking reports are available for Mobile version. Google Analytics is provided to identify trends and patterns in how mobile visitors engage and let travel agencies measure ROI.

Payment Options

Multiple payment options available from top providers. Travelers have the option to Pay at agency or Pay by credit with a secure digital authentication process.
